

Thomas Franciszkowski joins Intersec as VP R&D

Press release - August 27th 2014 - Paris, Intersec is pleased to announce the appointment of Thomas Franciszkowski as VP R&D, under the responsibility of the CEO, Yann Chevalier. Thomas Franciszkowski will manage the R&D department accounting for more than 40% of the company's workforce. He will also be bringing to bear his expertise in developing products and processes to go further in terms of innovation and cutting-edge technology.

Speaking on his appointment to the role, Thomas said "I am very excited to be part of an organisation with such an impressive track record in building high performance solutions, and I look forward to working for this innovative and dynamic company".

In 2006, Thomas obtained his MSC in Computer Science from "Ecole Nationale Supérieure d'Informatique pour l'Industrie et l'Entreprise" (ENSIIE) of Evry. He started his career as an R&D Software Engineer, then moved on to be an R&D team leader before going on to hold the position of Director of Engineering at Bull.

Yann Chevalier, CEO says "Thomas has led highly skilled engineering teams for many years and we are sure that he will bring a wealth of experience and technical leadership to the Intersec R&D department".

About Intersec

Intersec designs solutions that enable mobile operators to capture and monetize their network value through Big Data collection. Operators can then create new and innovative services. Intersec integrates its leading core network solutions to generate location intelligence revenue and to maximize customer value management, contextual engagement, and messaging traffic profitability. Our award-winning products are designed to efficiently implement loyalty & retention, value creation and cost optimization strategies for CSPs. Acclaimed by 60+ MNOs, Intersec technology enhances the experience of several hundred million subscribers worldwide and manages over billion smart events day after day.
