

Ottman Zair joins Intersec as VP Operations

Press release - Feb 15th 2016 - Paris, Intersec (<https://www.intersec.com/en/>), the leading vendor of real-time streaming analytics software is pleased to announce the appointment of Ottman Zair as VP Operations, reporting to the CTO, Jean-Marc Coïc. Ottman Zair will organize the work of the Professional Services and R&D teams. He will make sure the company keeps on honouring its DNA by developing outstandingly fast products for the benefit of its customers, and be responsible for delivering company's commitments towards customers.

"I am very happy to join an organisation with such an impressive track record in high performance solutions. With platforms deployed all over the globe, Intersec has demonstrated the relevance of its technology for all kind of markets and I am pleased to come on board to help the company further scale".

Ottman started his career at HP as an engineer in 2001. He then joined eServGlobal as a regional General Manager. He moved to Volubill in 2010 as Global Support Director before being promoted Business Unit Director. In 2013, he took the position of Director Product Management & Product Marketing - Risk Foundation at Moody's Analytics before joining Intersec.

Jean-Marc Coïc, CTO says "Ottman has a huge experience in initiation, management and execution of projects and possesses in-depth knowledge of managing operations. We are sure that he will bring a wealth of experience and management skills to our teams."

About Intersec

Intersec designs innovative software enabling operators to leverage their network Big Data. Our disruptive technology crunches and consolidates huge amounts of data coming from heterogeneous network equipment and IT, and turns them into actionable insights in real-time.

Applications range from Customer Base Management, mass-scale Location-Based Services, Fraud Management and Business Analytics. Discover our solutions on www.intersec.com and visit us at Mobile World Congress Hall 5 Stand B26 – Feb. 22-25, 2016.
